

DESIGN & MANUFACTURING

is hiring **drafters**

\$17-\$21/hr in Lewistown, Montana

2D CAD program experience required

Solid modeling and SolidWorks experience preferred

Spika Design and Manufacturing is a leading designer and manufacturer of work platforms for industrial use in the aerospace industry and other OEM facilities. Customers include Boeing, Lockheed Martin, Space Systems Loral, NASA, and all branches of the government. Spika employs over 50 people in Lewistown.

Employer of Choice | MT Exporter of the Year

MT Family Business of the Year | MT Manufacturer of the Year

Spika is located in Lewistown in the very center of Montana. More scenic and populated than eastern Montana, but with more open spaces and far less population than western Montana, this area offers excellent **hunting, fishing, hiking, skiing, snowmobiling** and other outdoor recreational opportunities.

BASIC DUTIES AND RESPONSIBILITIES

- Perform final quality check of full solid model, ensuring all features are accurate and correct, all holes align, all parts mate correctly, and no interferences exist
- Create 2D drawings and details of all modules, assemblies, sub-assemblies, and parts as defined by Spika and/or customer standards and procedures
- Create DXF files and accompanying PDF files for submission to outsourced processors or in-house CNC machines
- Create bills of material for Purchasing and Inventory
- Create parts manuals
